

How to take care of your Corporate Fashion correctly

So you can enjoy your fashion for a long time:

Cleaning in the washing-machine

Preparing correctly:

- ✓ Close the zippers of your trousers or skirts to avoid damage.
- ✓ Wash white and coloured clothes separately. Wash similar colours together.
- ✓ Do not overfill your washing-machine.

Costumes & Suits:

Our costumes & suits are machine-washable !

Delicates / Wool up to 40° C

- we recommend to use liquid detergent. It clears away better.

- Spin cycle max. 400 turns

Do not tumble dry

Treatment after washing: if necessary, please iron delicately with low heat and a humid towel; we would recommend a Teflon-layer for your iron, so you can iron even your wool clothes delicately and avoid shiny parts.

Put your jacket on a hanger to dry after washing. It helps to keep the form of your whole jacket and your shoulder pads.

Fold your trousers at its crease and put it on the hanger. Use clamp straps for your skirts.

Care-suggestions:

Please take care of special care-recommendations and the care label inside your textiles.

Blouses & Shirts:

Cotton up to 40° C

Polyester up to 30° C

Tumble dry with low heat - iron dry

Iron delicately with very low temperature

Polo-Shirts & T-Shirts:
